Whether you are seeking relief from aching muscles, fatigue or stress, our expert therapists will deliver a tailored treatment to revitalize you.

Couples can create their own private sanctuary together while indulging in a personalized massage experience in our couples Harmony room. Choose from any of our massage treatments or we will customize your experience upon your request.

Special Etiquette

Our Health Club & Spa creates an environment that promotes pure relaxation. We appreciate your cooperation in turning off or silencing your mobile phone or any other electronic device that may disrupt other guests' enjoyment.

How early should I arrive?

We suggest you arrive 30 minutes prior to your first appointment to allow ample time to change, shower and acclimate to the spa environment. This will give you time to relax in our lounge, sauna or steam room.

A late arrival resulting in a delayed start of your scheduled service will reduce the length of your treatment, lessening its effectiveness and your pleasure. Your treatment will end on time so the next guest is not inconvenienced. The full value of your treatment will be charged.

Your Comfort

It is customary for guests to completely disrobe for most spa services, but you may wear a swimsuit or undergarments if you wish. Your preferences will be respected.

How do I prepare for my treatment?

We ask that all guests shower prior to enjoying any of the communal water amenities. Please leave all personal belongings in your locker, and wear the robe provided to your treatment.

What should I bring?

Robes, slippers and workout attire is offered to all guests. For guests using the fitness center and/or pool, please bring your own swim attire and athletic shoes. We regret that we cannot be responsible for any loss or damage of personal articles. Please keep all valuables locked in your locker during your visit. We recommend wearing casual clothing and no jewelry.

May I use the spa if I am pregnant?

We offer specially designed treatments for expectant mothers after their first trimester. We recommend you avoid any treatments using deep pressure and heat. Please notify us of your due date when scheduling your appointment so that we can assist in determining the best treatments for you.

Special health considerations?

Your health is important to us. If you are pregnant or have any allergies, physical ailments or disabilities please let us know so that we can help you choose the best treatments for you.
